Reasons for Allowance

1. An after-final amendment was received from the applicant on August 16, 2004.

2. Claims 5, 9 and 14-16 have been canceled.

3. Claims 1-4, 6-8, 10-13 and 17-20 are allowed.

4. The following is an examiner's statement of reasons for allowance. The cleat as claimed is not shown or suggested in the prior art because of the use of a cleat that is

comprised of a leg, a pair of projections that extend from said leg, a hand grip aperture

that is formed in said leg, and a means for adjustably mounting said cleat on a support,

where said mounting means is further comprised of a strap and a slot that is formed in

said cleat for receiving said strap.

5. The prior art as disclosed by Pape et al. (US 6,487,984) shows the use of a cleat

that is comprised of a leg, a pair of projections that extend from said leg, an aperture

that is formed in said leg, a means for adjustably mounting said cleat on a support, and

a base. However, none of the prior art cited shows or suggests the use of a cleat that is

comprised of a leg, a pair of projections that extend from said leg, a hand grip aperture

that is formed in said leg, and a means for adjustably mounting said cleat on a support,

where said mounting means is further comprised of a strap and a slot that is formed in

said cleat for receiving said strap.
